ARROW ENERGY
TIPTON WEST DEVELOPMENT PROJECT
EPC CSG FIELD DEVELOPMENT

QUEENSLAND, AUSTRALIA
2006-2007

Arrow Energy's first major project for full field CSG development was Tipton West Development south west of Dalby, Queensland. Having delivered Kogan North CGPF as EPC Contractor Arrow invited Wasco to work with it in ECI and Target Cost Estimate basis to develop Tipton West.

ENGINEER, PROCURE,
CONSTRUCT

Wasco designed and built the 85 well PE Gathering System from riser to CGPF and the CGPF where 6off Universal Gas Engine Drive Reciprocating Compressors and TEG were installed.

The project was delivered early and under budget and without incident. Arrow began sales of on spec gas from Tipton West in early 2007.
