

CHAIN OF RESPONSIBILITY POLICY

Wasco recognises and accepts its obligations in the transport chain of responsibility to maintain and promote safe operations. Wasco shall:

- undertake to comply with all road transport laws, codes and guidelines applying to our operations, including the CSG Logistics Safety Code of Practice;
- not knowingly make or meet any demand or requirement that would cause us to breach road transport laws applying to our operations;
- ensure we have in place suitable and adequate processes, programmes, and training so that we can demonstrate we have taken reasonable steps to comply with all relevant laws;
- conduct training to develop staff awareness of business policies and procedures and their obligations such as
 - fatigue management,
 - speed compliance,
 - loading and unloading requirements,
 - scheduling requirements,
 - well maintained and appropriately designed and equipped vehicles, and
 - driver health, safety and security requirements.
- ensure staff are not just aware of their obligations, but are actively engaged in implementing practices;
- request information from transport operators and/or drivers about what systems they have in place to prevent breaches of road transport laws when transporting goods;
- cause all new contracts or arrangements to include compliance with the relevant laws as a material requirement;
- recognise and accept that cost alone should not be a determining factor in meeting our transport obligations.
