

SUSTAINABILITY STATEMENT

Wasco is committed to promoting sustainable business practices through an integration of environmental, social, and economic initiatives, raising industry standards, and building a better quality of life as a whole.

Wasco shall:

- Protect and enhance the natural environment, including all flora and fauna within the areas of that the company is responsible
- Ensure all relevant environmental and heritage issues are identified and managed appropriately during construction activities
- Monitor emerging environmental technologies for potential use in future activities
- Actively seek and participate in the establishment of alternative energy markets
- Be a leading example of social and economic progress
- Promote the skills of the industry to ensure there is a large pool of well qualified employees
- Value the needs of all stakeholders and ensuring Wasco's actions affect them in a positive manner
- Providing safe, healthy, and productive working environments
- Educate, train, and motivate staff to work in an environmentally responsible manner; and
- Proactively comply with regulatory resource restrictions and warnings.

The company is committed to continuous improvement of environmental performance and best practice environmental management.
